STOP THE SPREAD OF WAR!

George Bush and the United States' reckless pursuit of the war on terror has every appearance of spiralling out of control. US warships are gathering in the Black Sea and US troops are now making regular incursions into Pakistan. The war in Afghanistan escalates by the week with a mounting toll of horrific civilian loss of life.

Whatever the result of the US presidential elections, this dangerous trend looks set to continue into 2009.

Never has the need for the Stop the War Coalition been greater.

COME TO THIS URGENT AND IMPORTANT MEETING
