The “war on terror” has been a disaster. Whether for the people of Afghanistan and Iraq (see opinion poll on the right) or for the population of the “coalition of the willing” – this war has destroyed hundreds of thousands of innocent lives, has cost many billion of pounds, and has seen a massive erosion of our civil liberties.

All of this, while dismally failing to achieve its stated aim of reducing terrorism around the world.

Now Blair and Bush are ratcheting up the pressure on Iran. As mad as it may seem, the Bush administration seem to be seriously consider-

ing an attack on Iran. They have already drawn up detailed plans for bombing the country, and have sent extra aircraft carriers to the gulf in preparation.

Wandsworth Stop the War Coalition have campaigned against this bogus war from the beginning. Now we invite you to a public meeting where you can hear Moazzam Begg speak about his experience of false imprisonment in Guantanamo Bay.

We will also have speakers to discuss the threat to invade Iran, and the wider context of the war on terror.

-
- **No Attack on Iran**
 - **End the Occupation of Iraq**
 - **Bring the Troops home now**
 - **Close Guantanamo**
 - **Defend Civil Liberties**
 - **Defend the Muslim Community**
